Brand

Mission

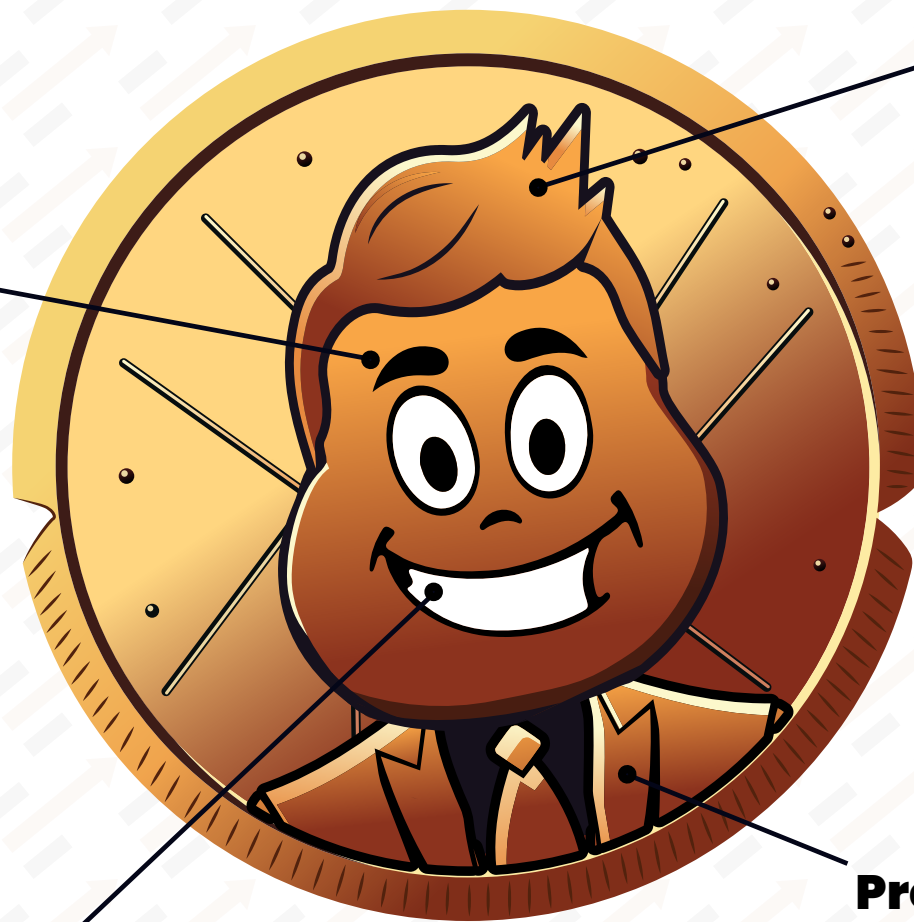

Pennytaxllc's mission is to help people understand and manage their taxes simply and efficiently. The company seeks to provide a personalized and quality service that generates confidence in its clients.

Vission

Pennytaxllc aspires to be the leading tax preparation company in the area, recognized for its professionalism, innovation and commitment to the community. The company seeks to become a benchmark in the tax field, offering high-quality services accessible to everyone.

Core Value

Relaxed:
He likes to wear sneakers
with a suit.

Modern:
Appreciates the latest trends
and elegant clothing.

Trustworthy:
It seeks to inspire confidence in its clients,
especially young people.

Professional:
You care about the image you project
and want to be seen as sophisticated.

LOGO

The *Penny Tax* logo anchors our visual identity. Consistent use of this logo significantly contributes to maintaining and strengthening the identity and reputation of *Penny Tax*.

The primary *Penny Tax* logo is composed of two parts: the Building symbol, and the wordmark/Brand name. These parts combine to make a logo that identifies us to the world.

ORGANIZATION NAME

To help build brand awareness of our identity, the organization name is included in the logo. It's critical to use this full version of the logo in all external-facing communications. The organization name may be removed ONLY in situations where space is limited, such as website headers or small promotional materials, as well as all internal communications.

Logo Symbol

Wordmark/Brand Name

Always use the provided artwork for logos. Never attempt to redraw or typeset them in any way.

LOGO CONFIGURATIONS

In addition to the primary logo, a secondary version is available to add flexibility in layout. It should be used ONLY when space is too short or limited space.

PRIMARY LOGO

SECONDARY LOGO

SHORT SYMBOL/FAVICON

The symbol may be used as a separate element to represent *Penny Tax* in special situations when the space is severely limited, such as social avatars, favicons or small promotional materials. In those cases, the organization name, url or wordmark MUST also be visible nearby. The NSC brand team may approve other exceptions.

SHORT SYMBOL/FAVICON

LOGO Versions

Penny Tax logos are available in a variety of file types (EPS, PNG, SVG) and color systems (CMYK, RGB, PMS). Use the full-color and reversed versions of the *Penny Tax* logo on the majority of all print and digital communications.

Positive

Reversed

LOGO Usage

CLEAR SPACE

To preserve the integrity of the *Penny Tax* logo, a minimum amount of space is required around all edges to separate it from other graphics and content. The clear space should be equivalent to or greater than the size of the symbol (X).

MINIMUM SIZING

To ensure legibility, minimum sizes of logo reproduction have been established. Logos may not appear smaller than shown in the examples here. Logos should only appear at minimum size when absolutely necessary. Larger logos are preferable.

Clear space = hight of the X

LOGO Don'ts

Ensure that the *Penny Tax* logo is clearly recognizable by using it properly and never altering its appearance. These examples show what not to do with the logo.

Don't apply drop shadows or other effects to the logo

Do not change the proportions of the logo

Do not add a tagline or any other text to the logo

Do not typeset any portion of the logo

Do not rotate the logo

Do not change the color of the logo components

COLOR

Our color palette is rooted in **Alloy Orange** and **Jet** and includes a range of **secondary** colors that compliment our primary colors. Always includes a range of in mind the proportions shown in the chart to the right. Gradients and screens of all brand colors may also be used to expand the palette even further.

When using type on a colored background, be sure there is adequate contrast to make the words easy to read (e.g., do not use PMS 396 as small text on a white background).

***Note:**Use only the color values listed. They have been custom selected to match the Pantone color palette for different applications. In some design programs, the default settings may vary from these number equivalents. If that's the case, manually set the equivalents to match these values.*

TYPOGRAPHY
Font Families

Salmond

Salmond is a modern geometric sans serif typeface family. Its most distinctive characteristic is its lowercase modern style which results in a friendly and approachable visual appearance.

Salmond is best used as a display font in headlines and subheads. Avoid using Salmond in body text as it does not have strong legibility in dense paragraph form.

Default typeface

Arial is the default typeface for Salmond. Due to typeface limitations in many digital applications, use Arial for all email and Microsoft Office (PowerPoint, Word, Excel) communications. We are not able to control how fonts display at the receiving end, and using Arial will ensure brand consistency throughout all digital touchpoints.

Font Families

POPPINS

Poppins was created by an in-house designer at Google as the Android system font. Poppins belongs to the neo-grotesque genre of sans serif typefaces with clean and modern characteristics without being overly futuristic.

Poppins was created for maximum readability. It features friendly and open curves with a natural reading rhythm, making it ideal for long-form body text, as well as in charts and infographics. It has an extensive family of weights and styles with the versatility for both digital and printed applications.

Default typeface

Arial is the default typeface for Poppins. Due to typeface limitations in many digital applications, use Arial for all email and Microsoft Office (PowerPoint, Word, Excel) communications. We are not able to control how fonts display at the receiving end, and using Arial will ensure brand consistency throughout all digital touchpoints.

Imagery Direction

To capture the premium aesthetic of the brand our imagery follows a few simple principles to achieve a consistent style. Every image should contain natural light, avoiding direct sunshine. Shoots should appear natural and unposed and should contain colors that are calm and composed, without feeling curated. We captured the natural body movements of the models and kept post-production to a minimum to ensure a Professional feel. This kind of directed imagery combined with our carefully crafted copy-writing creates a warm and relatable tone on all our touchpoints.

Iconography

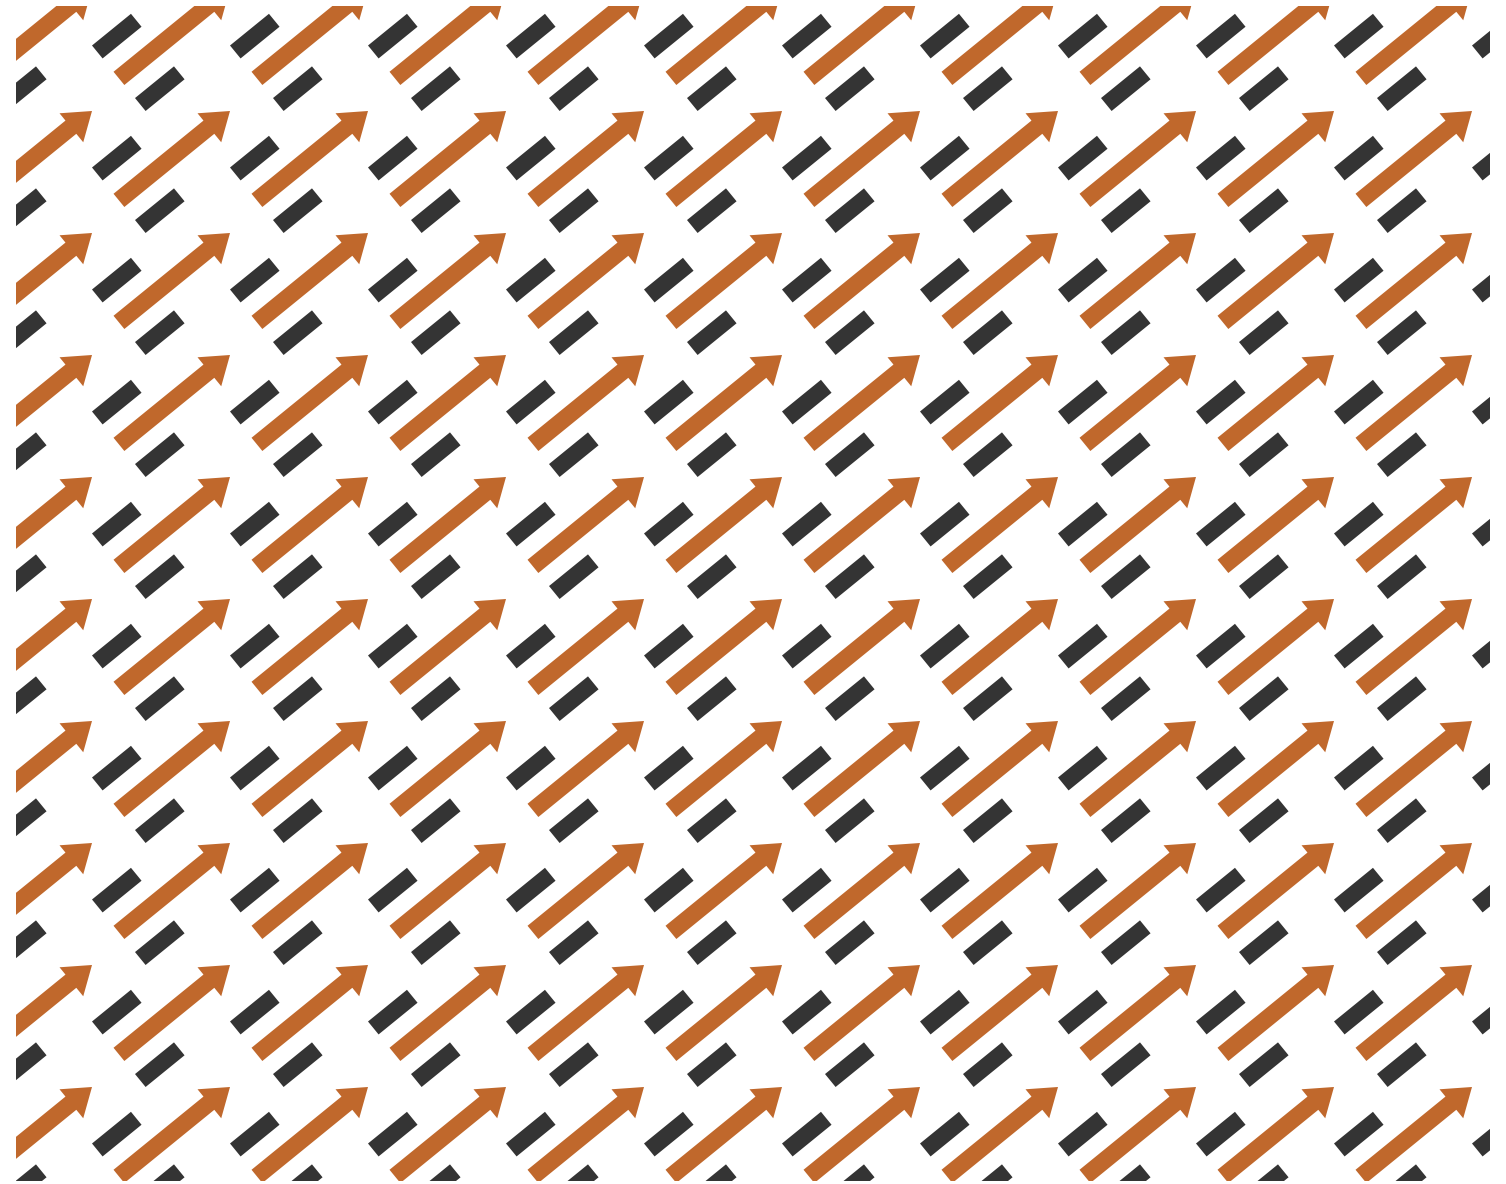

Icons are essential graphic elements and are one of the most recognised elements of the brand. Icons can help improve usability issues or give a message in a strong and consistent way.

Pattern

Patterns have the ability to add depth, texture and ownability to Penny Tax communications. Patterns composed of logo icon mountain can be used as an alternative to stock imagery, as well as to add visual interest to large areas of negative space.

Note: When using patterns, be sure to always match the proportions of the symbol from the Penny Tax logo.
